CITES TOXIN RECORD
Dr. Wood Shows Efficiency of Treatment in Diphtheria Cases.

The efficiency of diphtheria treatment for diphtheria is plainly disclosed by figures secured by Dr. H. B. Wood, city physician, during the city hall—from August to January 1.

In sixty cases of diphtheria antitoxin was given and there was just one death among the sixty.

In eight cases antitoxin was not given and three deaths occurred.

Antitoxin is also something of an immunizer. Ninety-five persons who came in contact with the above diphtheria cases were given antitoxin and only two developed the disease. Fifty-five persons who came in contact with the disease were not given antitoxin and eleven cases of diphtheria developed among them.

There are just two cases of diphtheria in Topeka at present, according to Dr. Wood.

COURTNEY'S REMODEL
Millinery Establishment Completely Remodeled Since Fire in September.

The Courtney Millinery parlors, 603 Kansas avenue, occupying the second and third floors, have been entirely refitted following the disastrous fire in September which damaged store rooms and stocks of goods in that vicinity.

The cases, woodwork, offices and retail sales rooms on the second floor as well as the whole department on the third floor have all been remodeled white. The walls have been recovered with light paper giving a harmonious effect. A corrugated steel ceiling replaces the old wooden one and with the re-arrangement of cases the Courtney Millinery parlors present an attractive and pleasing appearance.

VIADUCT BY MAY

East Sixth Structure Plans With City Engineer.

Reconstruction Will Be Started This Month.

The plans and specifications for the reconstructed East Sixth street viaduct are in the hands of the city engineer and the contract for the work will be let as soon as the plans are given the O. K. of the city. The expectation is to have the viaduct completed and ready for traffic by the first of May.

Forty thousand dollars will be spent on the viaduct and the expense will be borne jointly by the Santa Fe, the Missouri Pacific and the Topeka Street Railway company. The city doesn't spend a cent. It would cost \$100,000 to build a new concrete viaduct and it is said that the Santa Fe engineers stood out for that sort of a structure. They favored a viaduct that could be constructed and then forgotten, instead of one that must be repaired regularly.

The Street Railway company and the Missouri Pacific were not in financial condition to make the heavier expenditure, according to city officials. The plan of repairing the old structure was adopted. However, the repair consists of a practical reconstruction of the present viaduct. A great deal of steel work must be put in as the present steel has rusted and crystallized to a great extent. The present floor will be torn up and a new one laid.

The three interested companies have not made known the manner of dividing the cost. In the ordinance passed by the city commission it was provided that the Santa Fe should pay half or fifty per cent, the Street Railway company thirty per cent and the Missouri Pacific twenty per cent. The Missouri Pacific has only two tracks under the viaduct while the Santa Fe has a dozen or more. The Street Railway company has one track over the viaduct.

The viaduct has been out of repair for years and out of use for many months. Long ago it was declared unsafe for street car traffic and since then the Street Railway company has been transferring its passengers from the Santa Fe depot east on Fourth street to the Oakland car tracks by jitney. The viaduct is still used by pedestrians.

SAGE TEA
KEEPS YOUR HAIR DARK

It's Grandmother's recipe to bring back color, thickness and lustre—Everybody is using it again.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes a man a face. When it fades, turns gray and looks dry, wispy and scraggly, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the tonic at home or get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Compound." Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully and removes dandruff, stops scalp itching and falling hair; besides, no one can possibly tell, as it darkens so naturally and evenly.

You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, soft, naturally and evenly.

You appear years younger.—Adv.
